

“Would you like more from your workforce?”

HR Management Solutions

For Businesses of all shapes and sizes

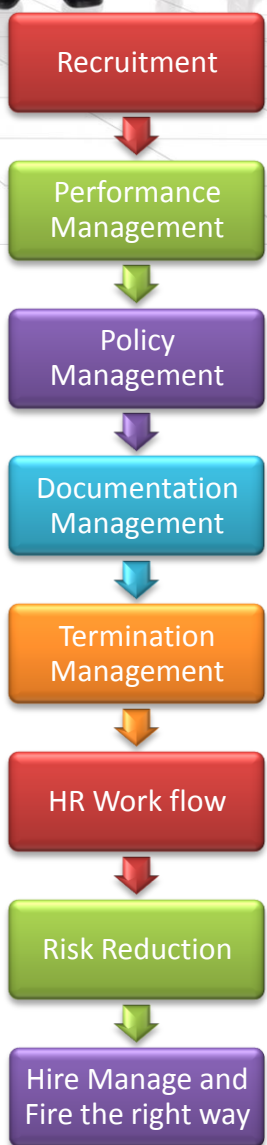

A quality Human Resource Management Systems (HRMS) provides the tools to enable a business to increase their ROI on their weekly/monthly/yearly investment in their biggest asset – their employees.

Having the best (satisfied and productive) workforce is a hallmark of successful businesses worldwide. Having the right tools to effectively manage your workforce is a critical part of the process to achieving the best workforce.

With the right HRMS in place a business will:

- Improve their decision making capability
- Improve their employee productivity
- Be better equipped to achieve their goals
- Improve their ability to manage change
- Reduce risk in their business
- Increase their employee retention rates
- Have consistency of actions and information interpretation
- Streamline their employee management
- Maximise the ROI on their biggest asset – their employees

HR2You offer three Australian made employee management systems to suit businesses from just a handful of employees right up to enterprise businesses with hundreds or even thousands of employees. No matter your shape or size, we can help you take control.

Staff Systems Software

Staff Systems Software is a standalone system designed to help small businesses (2-20+ employees) effectively self manage their HR function.

You can reduce your staff paperwork load and get on top of your staff management with one simple investment. Easy to get up and running so that you get a ROI straight away. Cut and paste any existing documents straight into the system. For any business that is struggling with HR, Staff Systems will provide them with instant 'HR Structure'. A free 14 day trial is available.

Main Features:

- ✓ Over 50 HR templates and forms
- ✓ Staff database to track signed documents
- ✓ Critical dates diarised to Outlook calendar
- ✓ One off price – no ongoing costs
- ✓ Free support
- ✓ Guidance on HR processes
- ✓ Reduce your risk to unfair dismissal claims

Online HRS

Whether you are a seasoned HR manager, someone new to HR, been given the task of managing staff or a business owner struggling to keep up - you need the tools to do the job properly and help you bring order from chaos.

Despite the powerful features of Online HRS, the great thing is that you don't need a degree to operate the system. It is easy enough for anyone in admin or management to use. It comes with guidance and tips and will give your business a HR structure and process to take control of employee management.

Our website contains further details and videos detailing the human resource management features and benefits that Online HRS can deliver to your business. Ideal for 10 – 80+ employees!
